ANALYSIS OF CONSOLIDATED RESULTS

Revenue: Reflects the increase in the achieved gold price to \$5,877/oz from \$3,910/oz in the comparative period and a substantial increase in gold ounces sold. The increased gold sales was driven by a 23% growth in gold production to 195,355oz in the period including 24,919oz from the Ore Purchase Agreement (OPA), compared to 158,255oz in the comparative period.

Cost of sales: The increase was a result of increased production in comparison to the previous period and the election to purchase high grade oxide ore under the OPA in the period.

Net Profit After Tax: The increase Net Profit After tax was a result of increased production, achieved gold price to \$5,877/oz from \$3,910/oz in the comparative period. This was partially offset by the loss on assets held for sale of the Mt Henry gold Project and the corresponding Income tax relating to the increased profits.

Assets: the increase is mainly a result of ongoing capital development and the infrastructure upgrades completed across the Group.

Cash and cash equivalents: The increase in cash and cash equivalents was predominantly driven by the increased gold price and production, resulting in increased cash generation.

CHANGES IN CONTROLLED ENTITIES

During the period, Valiant Gold Resources Limited was incorporated on the 14th of October 2025, and Red Hill Gold USA Corp was dissolved on the 23rd of December 2025.

DIRECTORS' REPORT

The Directors submit their report together with the financial report of Westgold Resources Limited (Westgold or the Company) and of the Consolidated Entity, being the Company and its controlled entities (the Group), for the half year ended 31 December 2025.

DIRECTORS

The names of the Company's directors in office during the half-year and until the date of this report are set out below. Directors were in office for this entire period unless otherwise stated.

ENVIRONMENTAL, SOCIAL AND CORPORATE GOVERNANCE (ESG)

Westgold operates safely and responsibly while delivering value to our shareholders, employees, regional communities, and the value chain connected to our operations. We drive local economic growth through strategic employment and procurement, while recognising that our operations occur on the traditional lands of First Nations peoples. Respect for Country, cultural heritage and our land access agreements underpin our work.

Our Environmental, Social, and Governance (ESG) approach supports risk management and operational resilience. We focus on long-term performance by managing our environmental impacts, meeting regulatory obligations, engaging with stakeholders, and prioritising initiatives that deliver operational efficiency and support long-term value creation. We are currently maturing our climate governance and data quality in alignment with mandatory climate-related financial disclosure requirements. Westgold's refreshed ESG Strategy will be released alongside our full-year results.

We are continuously maturing the systems that protect our people, with a focus on Fatality Prevention, Injury Reduction, and Leadership. This year, we refreshed our Critical Risk Management (CRM) framework, with implementation scheduled for H2 FY26. The updated framework provides clarity on risk identification, control verification, and the mandate to cease work if controls are compromised. This approach ensures disciplined, informed decision-making at the frontline.

At the end of H1 FY26, Westgold recorded a Total Recordable Injury Frequency Rate (TRIFR) of 9.52 injuries per million hours worked. Although our all-injury frequency rate (AIFR) has remained stable, this increase in TRIFR is attributed to a change in classification to restricted work injuries following audits of injuries as part of our strengthened governance process.

Following the most recent audit, we updated our Incident Reporting Procedure and Injury Classification Guidelines to enhance the accuracy and consistency of safety reporting. This uplift in data quality, combined with an increased focus on positive reporting and deeper analysis of injury mechanisms, will support more targeted and effective injury prevention programs for our workforce.

REVIEW OF OPERATIONS

Westgold is a gold producing company. The Group's assets are located in Western Australia and comprise its 100% interest in the Murchison and Southern Goldfields operations. The Murchison incorporates three processing hubs (Fortnum, Meekatharra and Cue), four underground mines (Bluebird-South Junction, Starlight, Big Bell, and Fender), and one development project (Great Fingall). The Southern Goldfields incorporates the Higginsville processing hub and the Beta Hunt and Two Boys underground mines.

Group Operational Results

- Record consolidated total profit before income tax of \$270.7M (2024: \$4.6M)
- Record consolidated profit/(loss) after tax \$190.7M (2024: (\$27.6M))
- Record total consolidated revenue of \$1,237.6M (2024: \$624.0M);
- Total cost of sales of \$774.9M (2024: \$497.7M);
- Cash flows from operating activities of \$531.7M (2024: \$125.4M);
- Cash flows used in investing activities of \$135.7M (2024: \$256.7M);
- Cash flows used in financing activities of \$115.7M (2024: \$18.2M).

The financial outcomes reflect a profit before income tax of \$270.7M as a result of an increase in consolidated gross profits to \$462.6M in comparison to the prior period due to an increase in the achieved gold price to \$5,877/oz and production offset by increased cost of sales associated with the additional production. This was offset by the one-off loss on expected disposal of the Mt Henry and Selene assets of \$177.9 M. Refer to Note 25, within the notes of the financial statements for the consideration price applied to the carrying value of the assets and liabilities at 31 December 2025.

Cash flows from operating activities of \$531.7M increased due to increased achieved gold price and increased gold produced, offset by the stamp duty payment \$75.7M for the Karora Acquisition.

Cash flows used in investing activities of \$135.7M mainly include investments in mine properties and development relating to the continued expansion and development of the existing operating mines. This was partially offset by the final proceeds received from the Lakewood sale.

Cash flows used in financing activities of \$115.7M include the debt repayment of \$50M.

Refer to the below table for underlying financial results.

Statutory earnings reconciliation (\$M)	EBITDA	EBIT	NPBT	NPAT
Underlying earnings	612.0	459.3	447.2	313.9
Less: Loss on assets held for sale*	(177.9)	(177.9)	(177.9)	(177.9)
Less: Exploration and evaluation expenditure written off	(0.1)	(0.1)	(0.1)	(0.1)
Add: Reversal of Impairment of an associate	1.5	1.5	1.5	1.5
Add: Impact of adjustments on income tax expense*	n/a	n/a	n/a	53.3
Statutory earnings	435.5	282.8	270.7	190.7

The Company's operating margin remained competitive at 35% with Westgold achieving an EBITDA of \$436M for the half. These strong margins generated a gross profit of \$463M, which was then offset predominantly by a one-off, non-cash loss of \$178M (\$125M after tax) on the sale of Mt Henry-Selene, resulting in a profit before income tax of \$271M and a net profit after tax of \$191M. Whilst the impact of the sale of Mt Henry-Selene to earnings were non-cash, its important to note that the sale generated immediate real cash inflows of \$15M and approximately \$65M in Alicanto shares (representing a 19.9% strategic stake), and up to \$30M in deferred consideration payable in cash or shares upon the achievement of agreed project milestones.

Excluding the aforementioned one-off, non-cash loss on assets held for sale, the Group's underlying EBITDA and net profit after tax was \$612M and \$314M respectively.

About Westgold

Westgold Resources Limited (ASX: WGX, TSX: WGX) is a leading, ASX200 Australian gold producer, with a clear purpose - to unearth enduring value for all our stakeholders.

Our vision is to become the leading Australian gold company, sustaining safe, responsible and profitable production.

Our operations comprise four mining hubs, with combined processing capacity of ~6Mtpa across the Murchison and Southern Goldfields, two of Western Australia's most prolific gold-producing regions.

The company is debt free and remains 100% unhedged, providing full exposure to rising gold prices.

Westgold produced 195,355 ounces of gold in H1 FY26 and is well placed to meet its FY26 full year production guidance of 345,000 to 385,000 ounces.

REVIEW OF OPERATIONS (CONTINUED)

Corporate

Debt

As at 31 December 2025 Westgold has access to a debt facility of \$100M under the Syndicated Facility Agreement with ING Bank (Australia) Limited and Societe Generale. During the 31 December 2025 period, Westgold repaid all outstanding debt of \$50M, resulting in the Group being debt free at the end of the period.

Divestment of Non-core assets

During the period, Westgold executed a binding Asset Sale Agreement with Alicanto Minerals Limited (ASX: AQI) for the divestment of the Mt Henry–Selene Gold Project near Norseman, Western Australia. With the transaction closed on 13 February 2026, the total consideration of approximately \$110M comprises \$15M in cash, approximately \$65M in Alicanto shares (representing a 19.9% strategic stake), and up to \$30M in deferred consideration payable in cash or shares upon the achievement of agreed project milestones.

This transaction is consistent with Westgold's strategy to focus on its core operating assets and unlock value from non-core holdings, while retaining exposure to future upside through a strategic shareholding in Alicanto.

Valiant Gold Demerger

Westgold announced the demerger of its non-core Reedy's and Comet gold assets in the Murchison region into a new ASX-listed company, Valiant Gold Limited, via a proposed demerger and concurrent initial public offering subject to approval from the Australian Securities Exchange (ASX)¹. The transaction is intended to unlock value from these assets which are not included in Westgold's long term plans, while simplifying the Company's portfolio and sharpening its focus on larger, core operations.

Valiant is expected to be a well-funded, standalone gold company with a dedicated management team and a clear pathway to near-term cash flow through an ore purchase agreement to be entered into with Westgold, providing access to Westgold's processing infrastructure at Meekatharra. Following completion of the demerger and IPO, Westgold is expected to retain a significant equity interest in Valiant, preserving exposure to exploration and development upside.

Consolidated Operational Results

The Group reported an increase in revenue compared to the previous corresponding period with a 50% increase in the achieved gold price and increased gold production.

* All-in Sustaining Cost (AISC): represents the cost for mining, processing and administration after accounting for movements in inventory (predominantly ore stockpiles) and royalties. It also includes sustaining capital expense but excludes capital costs for exploration, mine development and plant and equipment.

Note that AISC \$/oz is non-IFRS measures and have not been audited. This are widely used "industry standard" terms that certain investors use to evaluate company performance.

REVIEW OF OPERATIONS (CONTINUED)

Operating Segments

Revenue increased over the previous corresponding period due to higher gold prices being achieved and increased production.

Depreciation and amortisation charges increased over the previous corresponding period reflecting the increased production and larger cost base due to \$131.7M of Exploration and Evaluation assets transferred to Mine Properties and Development during the period. The amortisation in the Murchison decreased as a result of the Fender mine nearing the end of its life.

Operation	Revenue		Cash Costs of Sales		Amortisation/Depreciation	
	2025	2024	2025	2024	2025	2024
	\$M	\$M	\$M	\$M	\$M	\$M

Southern Goldfields	382.3	234.0	212.2	157.4	85.5	51.7
Other	-	-	5.8	4.0	1.6	0.9
Total	1,237.5	623.9	667.1	373.3	152.2	136.6

Capital Investment Activities

The Capital Investment activities during the period was driven by investment in growth projects (Bluebird-South Junction and the Great Fingall development), budgeted investments in resource development, and exploration as Westgold continues to invest in expansion and discovery within its extensive tenements holdings.

Cash flows used in investing activities totalled \$135.7M, lower than the previous period of \$256.7M as a result of the significant net cash outflow in the prior period for the Karora Acquisition.

Across each major operating unit, investment compared to the previous year is summarised below by the categories Mine Properties & Development (MP&D), Exploration & Evaluation (E&E) and Plant & Equipment (P&E).

Operation	MP&D		E&E		P&E	
	2025	2024	2025	2024	2025	2024
	\$M	\$M	\$M	\$M	\$M	\$M
Murchison	85.7	85.4	9.2	15.4	18.7	20.1
Southern Goldfields	20.6	12.7	8.9	7.6	15.4	13.5
Other	-	-	-	-	1.5	1.0
Total	106.3	98.1	18.1	23.0	35.6	34.6

Annual Ore Reserve and Mineral Resource Updates

Westgold released its annual update of Ore Reserves and Mineral Resources on 3 September 2025. The Group's total gold Mineral Resource Estimate as at 30 June 2025 increased by 24% year-on-year to 231Mt at 2.2 g/t for 16.3Moz, following a focused exploration and resource definition program. Notably, the maiden Stage 1 Mineral Resource Estimate for the Fletcher Zone at Beta Hunt delivered 2.3Moz, effectively doubling the Beta Hunt Mineral Resource.

Significant growth was also achieved at Bluebird-South Junction (up 35% to 1.3Moz) and Starlight (up 46% to 866koz), with both assets reporting increases post-mining depletion. These results underscore the value of Westgold's ongoing investment in organic growth and the strong potential within its Western Australian portfolio.

Ore Reserves as at 30 June 2025 grew by 5% to 56Mt at 1.9 g/t for 3.5Moz, marking the second consecutive year of post-depletion Ore Reserve growth. This uplift was driven by substantial increases at Bluebird-South Junction (up 90% to 528koz) and Starlight (up 94% to 250koz), offsetting mining depletions at other operations.

With a current milling capacity of 5.7 Mtpa, Westgold's estimated Ore Reserve life stood at approximately 10 years at 30 June 2025.

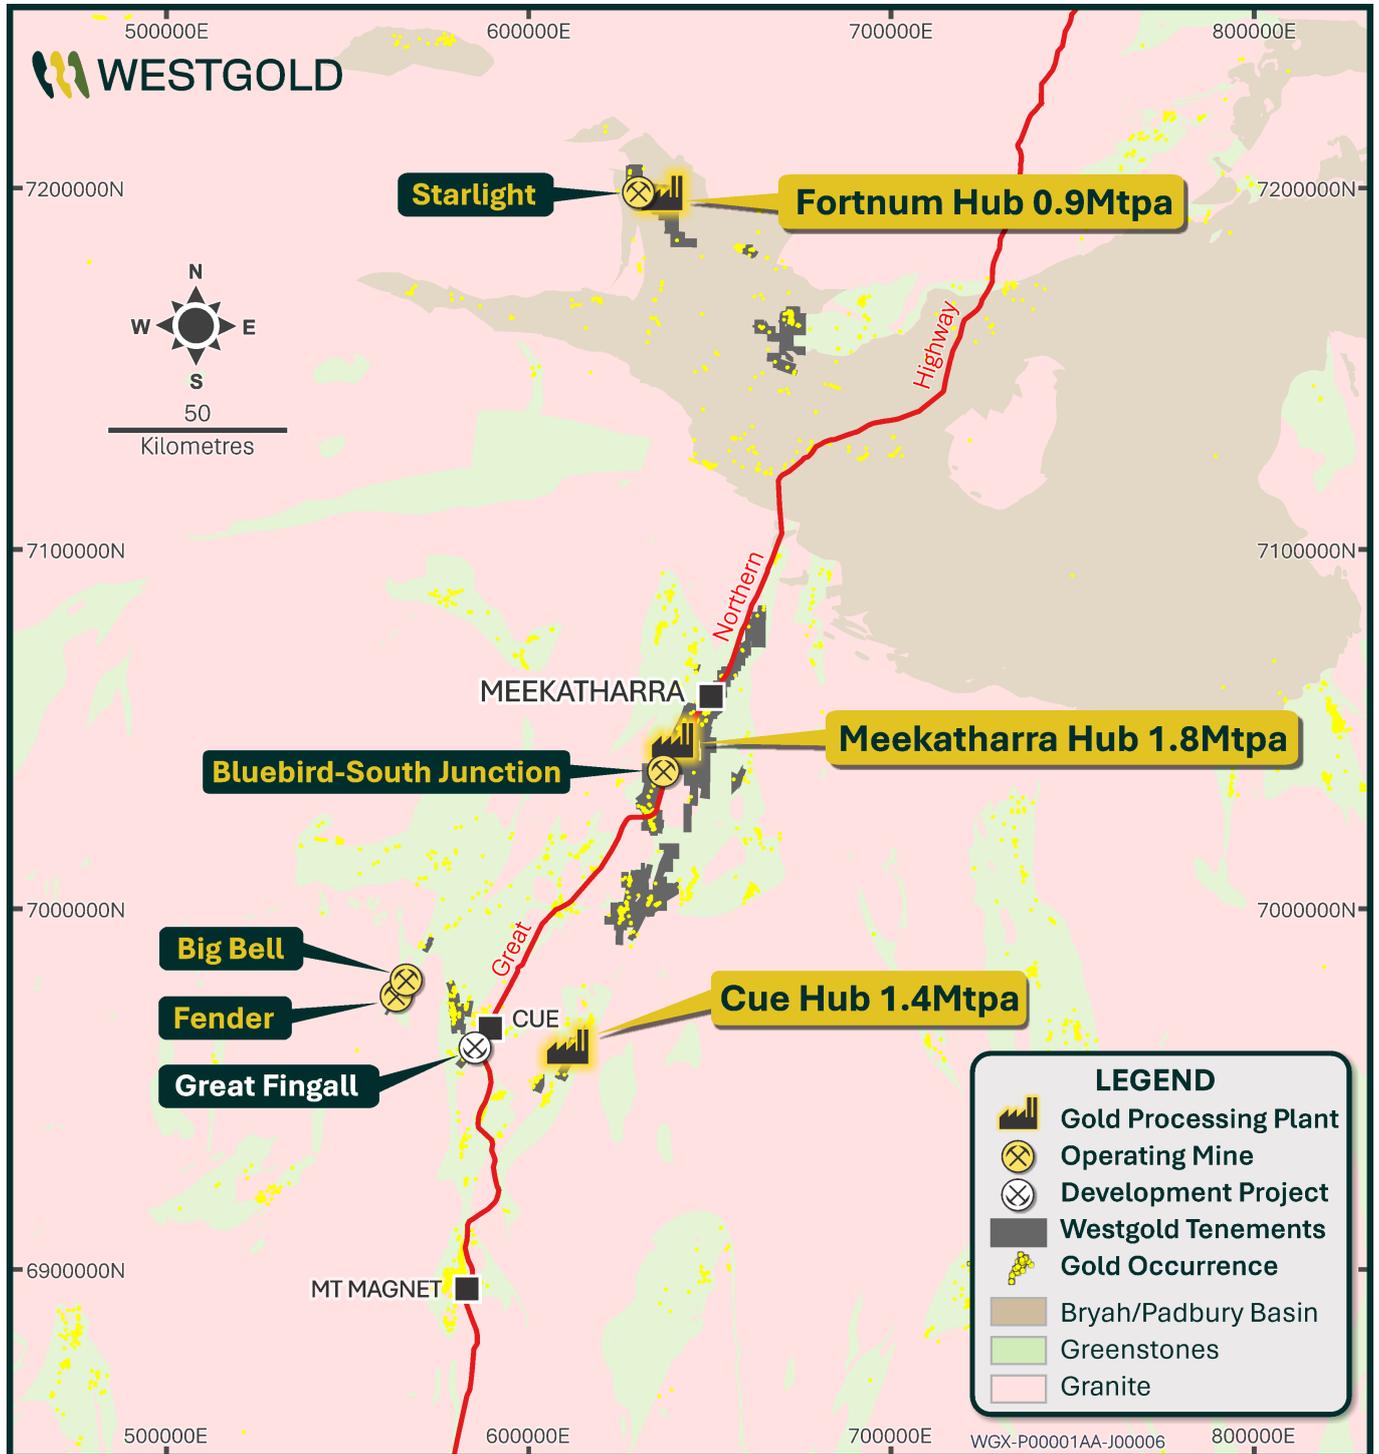

REVIEW OF OPERATIONS (CONTINUED)

In events subsequent to the period, Westgold divested the Mt Henry-Selene project, which had associated with it a Mineral Resource of 24Mt at 1.2g/t gold for 0.9Moz contained gold and a Ore Reserve of 11.7Mt at 1.3g/t Au for 478,300oz.

Murchison

The Murchison Operations incorporate three processing hubs (Fortnum, Meekatharra and Cue) and four underground mines (Bluebird-South Junction, Starlight, Big Bell, and Fender).

Gold production increased to 134,074oz from the previous corresponding period of 99,350oz.

Westgold's Murchison Operations

REVIEW OF OPERATIONS (CONTINUED)

Fortnum Hub

The Fortnum processing hub encompasses a processing plant, with a throughput capacity of between 0.8 and 1 million tonnes per annum. The Fortnum operations are the northern most sites in the Murchison and encompass the historic mining centres of Starlight, Labouchere, Fortnum, Horseshoe and Peak Hill and a 200-person Village and airstrip and other services to support this FIFO site in addition to the processing facility.

Ore production for the half-year was predominantly from the Starlight underground mine.

Meekatharra Hub

Located centrally in the Murchison is the Meekatharra Processing Hub near the Meekatharra township. The processing hub consists of a 1.6-1.8 million tonnes per annum processing plant, a 420-person village and other associated surface infrastructure.

The Bluebird Processing Hub is predominantly fed by ore from the adjacent Bluebird-South Junction underground mine, supplemented by ore purchased through the OPA from New Murchison Gold and excess ore from other mines and stockpiles within the Group's portfolio. When South Junction commences steady state mining, the Bluebird-South Junction mine is expected to mine at a rate of 1.2Mtpa.

Cue Hub

The Cue Processing hub is a processing plant with a capacity of 1.2-1.4 million tonnes per annum, situated approximately 30km from the town of Cue. The Big Bell underground mine and Fender satellite underground mine are located 60km west of the plant, produces around 1 million tonnes of ore per year serving as the primary feed source for the Cue Hub. The historic, high grade, Great Fingall mine is a development project located closer to Cue, Great Fingall had its first 'virgin' stope in H1 FY26 and commercial production is expected in FY27 providing additional feed for the Cue and Meekatharra Hubs.

The Company operates two villages in the Cue region, one at the regional town of Cue (266-person capacity) and the other at Big Bell (160-person capacity).

Southern Goldfields

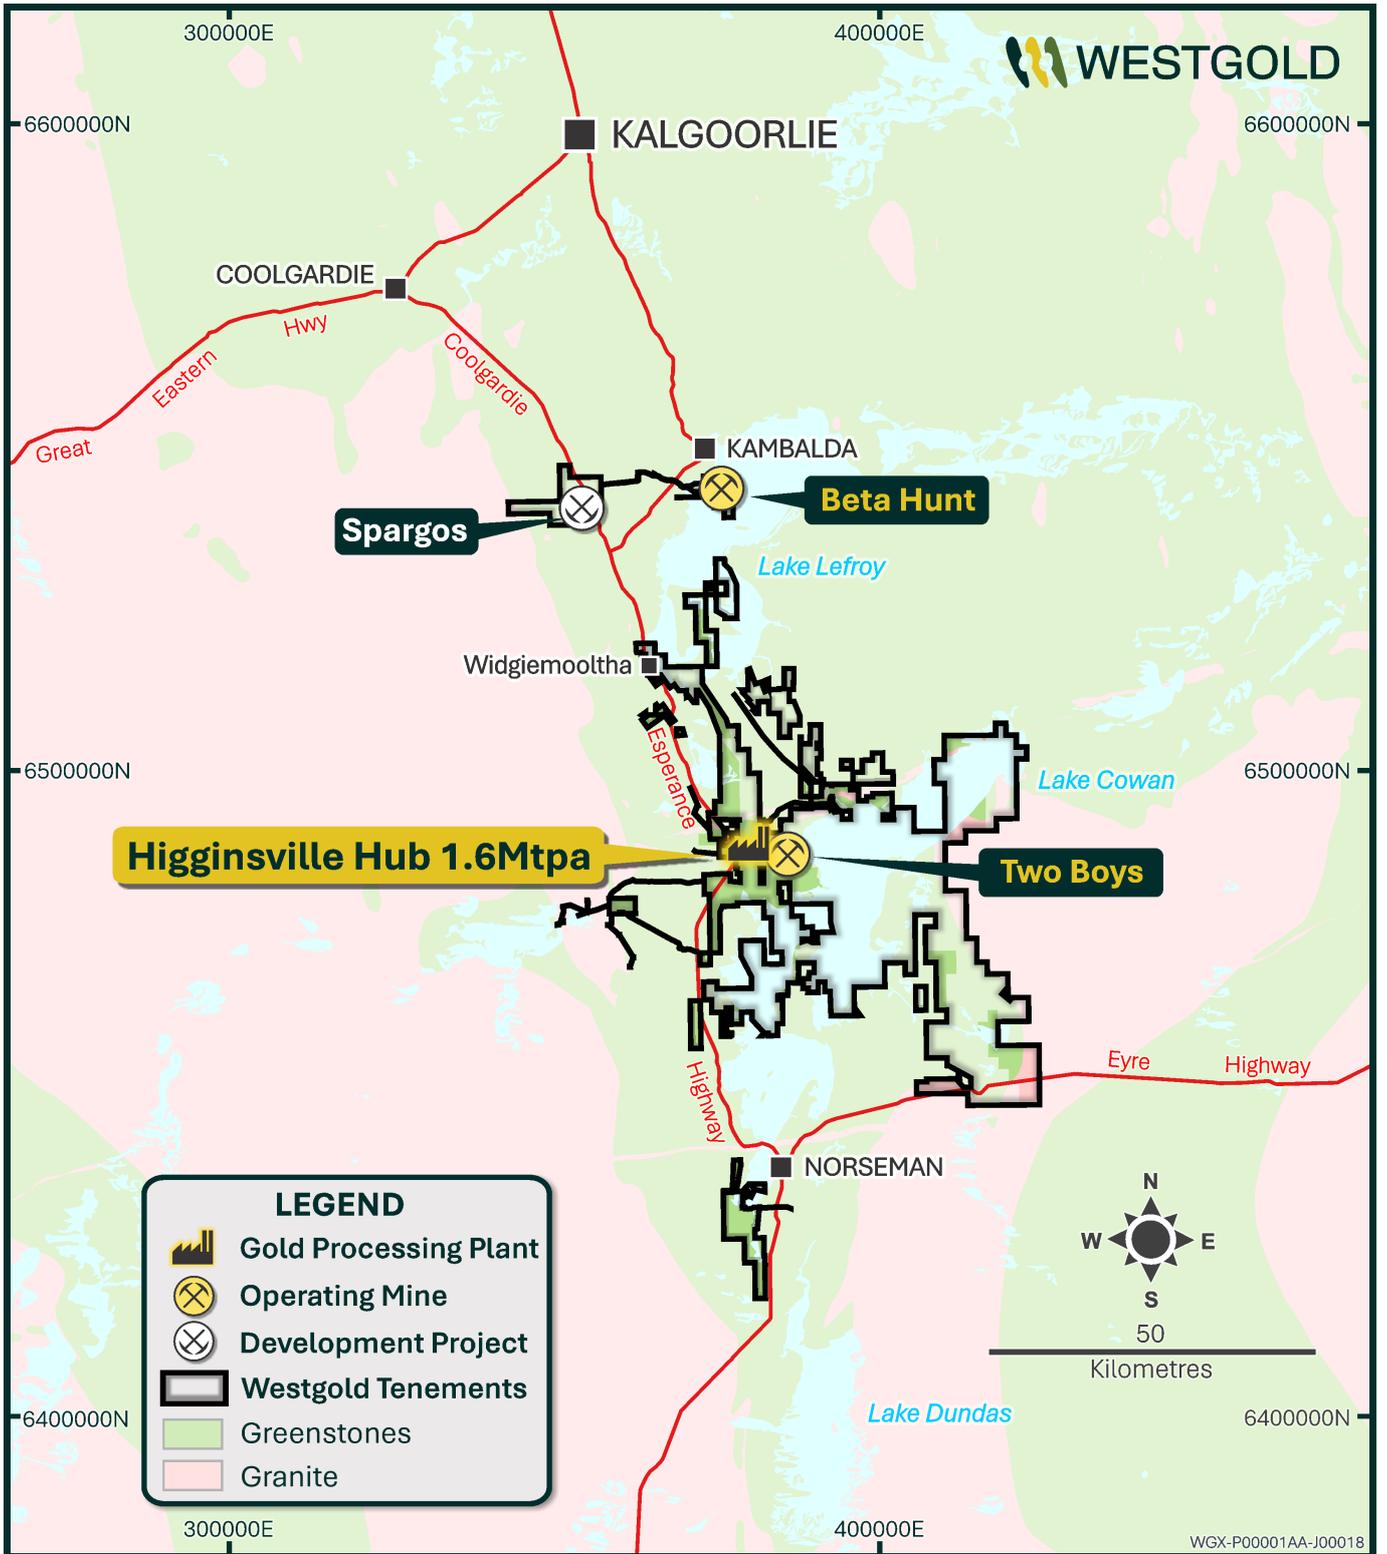

The Southern Goldfields Operations incorporate the Higginsville processing hub and the Beta Hunt and Two Boys underground mines

Gold production increased to 61,281oz from the previous corresponding period of 58,905oz.

Higginsville Hub

The Higginsville Processing Hub is a 1.6 million tonnes per annum processing plant, located 57 km south of Beta Hunt and 107 km south of Kalgoorlie-Boulder. The Higginsville Hub processes ore primarily from the Beta Hunt mine, with additional ore from Two Boys.

During the period, Westgold progressed a proposed acquisition of the Bluebush Accommodation Village in Kambalda, having been selected as the Shire of Coolgardie's preferred bidder. Westgold's \$22.1M cash offer covers the entire Bluebush Village land package and supports the Company's strategy to secure long-term accommodation capacity for its expanding Southern Goldfields operations. The modern 327-room village enhances operational resilience and reduces reliance on third-party providers. The Shire Council will make a final decision in late February 2026 ahead of a planned settlement in late March 2026 (subject to Council final approval).

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE HALF-YEAR ENDED 31 DECEMBER 2025

1. CORPORATE INFORMATION

The financial report of Westgold Resources Limited for the half-year ended 31 December 2025 was authorised for issue in accordance with a resolution of the directors on 25 February 2026.

Westgold Resources Limited (“the Company or the Parent”) is a for-profit company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange and Toronto Stock Exchange.

The nature of the operations and principal activities of the Group are described in the Directors’ Report.

The address of the registered office is Level 13, 200 St Georges Terrace Perth WA 6000.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES

(a) Basis of preparation of the half-year financial report

This general purpose condensed consolidated financial report for the half-year ended 31 December 2025 has been prepared in accordance with AASB 134 Interim Financial Reporting and the Corporations Act 2001.

The half-year financial report does not include all notes of the type normally included within the annual financial report and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the Group as the full financial report.

It is recommended that the half-year financial report be read in conjunction with the annual report of Westgold for the year ended 30 June 2025 and considered together with any public announcements made by Westgold and its controlled entities during the half-year ended 31 December 2025 in accordance with the continuous disclosure obligations of the ASX and TSX listing rules.

The financial report is presented in Australian dollars (A\$) unless otherwise specified.

Rounding

The amounts contained in this financial report have been rounded to the nearest \$1,000 (unless rounding is not applicable) where noted (\$000) under the option available to the Company under ASIC Corporations (Rounding in Financial/Director’s Reports) Instrument 2016/191. The Company is an entity to which this legislative instrument applies.

(b) Basis of consolidation and business combination

The half-year financial report is comprised of the financial statements of Westgold (the Company) and its controlled entities (the Group).

The financial statements of subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies.

All intercompany balances and transactions, including unrealised profits arising from intra-group transactions, have been eliminated in full.

Controlled entities are consolidated from the date on which control is transferred to the Group and cease to be consolidated from the date on which control is transferred out of the Group. Refer to note 23, for the change in ownership of controlled entities during the half-year period.

Where there is loss of control of a controlled entity, the consolidated financial statements include the results for the part of the reporting period during which the Company has control.

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, which is measured at acquisition date fair value, and the amount of any noncontrolling interests in the acquiree. For each business combination, the Group elects whether to measure the noncontrolling interests in the acquiree at fair value or at the proportionate share of the acquiree’s identifiable net assets. Acquisition-related costs are expensed as incurred and included in Acquisition costs unless they are directly attributable to issuance of new shares as part of the business combination, in which case they are accounted for directly in equity.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE HALF-YEAR ENDED 31 DECEMBER 2025 (CONTINUED)

2. MATERIAL ACCOUNTING POLICIES (CONTINUED)

(c) New and amended accounting standards and interpretations

The Group has adopted all Accounting Standards and Interpretations effective from 1 July 2025. The accounting policies adopted are consistent with those of the previous financial year and corresponding interim periods and therefore their adoption has not had any impact.

There is no other new and amended Accounting Standards and Interpretations applied for the first time from 1 July 2025.

During the half-year ended 31 December 2025, there were write-downs in inventories of \$156,747 (2024: \$70,772) from operations for the Group. This amount was included in the cost of sales line in the Condensed Consolidated Statement of Profit or loss and Other Comprehensive Income.

9. FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

These financial assets consist of investments in ordinary listed shares. The fair value of financial assets at fair value through profit or loss has been determined directly by reference to published price quotations in an active market.

The fair value gain of \$63.6M during the period (2024: \$4.0M) is reported in note 4. Significant movement in investments during the period ended 31 December 2025 are as follows:

- The Group has a 15.6% (30 June 2025: 15.7%) interest in New Murchison Gold Limited (NMG), which is involved in the production and exploration of gold and base metals in Australia. NMG is listed on the Australian Securities Exchange (ASX: NMG). During the period the Group acquired an additional 138,884,104 shares for \$2.3M. At the end of the period, the fair value of NMG was \$84.5M (30 June 2025: \$27.9M) which is based on the quoted share price.
- The Group has a 2.7% (30 June 2025: 2.8%) interest in Black Cat Syndicate Limited (BC8), which is involved in the exploration and production of gold and base metals in Australia. At the end of the period, the fair value of BC8 was \$24.5M (30 June 2025: \$15.3M) which is based on the quoted share price.

10. INVESTMENT IN ASSOCIATE

The Group holds 31,863,345 shares representing a 20% interest in Kali Metals Limited ("Kali"), which became part of the group through the acquisition of Karora. As a result of the level of share ownership resulting in the group having significant influence over Kali, the Group accounts for its investment as an associate using the equity method of accounting. The carrying value is \$3.8M, during the period the loss attributable to the investment in associate was \$0.3M and an impairment reversal of \$1.5M was recognised as a result of the fair value movement previously written off (based on the closing share price).

11. PROPERTY, PLANT & EQUIPMENT

During the period ended 31 December 2025, the Group incurred \$35.6M (2024: \$34.6M) in relation to property, plant and equipment acquisitions.

Additions to property, plant and equipment during the period included recognition of right-of-use assets (and associated lease liabilities) in respect of certain lease arrangements following a review of lease contracts portfolio. The impact of these adjustments has been reflected within current period financial report in accordance with the applicable accounting standards.

12. MINE PROPERTIES AND DEVELOPMENT

During the half-year ended 31 December 2025, the Group capitalised \$106.3M (2024: \$98.1M) in relation to mine properties and development costs. During the period, there were transfers of \$131.7M (2024: \$3.1M) to mine properties and development from exploration and evaluation as mining areas commenced development and extraction. Refer to note 13.

13. EXPLORATION AND EVALUATION EXPENDITURE

	31 December 2025	30 June 2025
	\$000	\$000
Exploration and evaluation costs carried forward in respect of mining areas of interest		
Pre-production areas		
At cost less expenditure written off	582,094	956,835
Net carrying amount	582,094	956,835
Movement in deferred exploration and evaluation expenditure		
At 1 July net of accumulated impairment	956,835	147,861
Acquisition as part of the business combination	–	772,525
Additions	18,119	40,721
Expenditure written off	(142)	(1,128)
Transfer to mine properties and development (Refer to note 12)	(131,677)	(3,144)
Transfer to Assets classified as held for Sale	(261,041)	–
At 31 December net of accumulated impairment	582,094	956,835

During the period, there were transfers of \$131.7M to mine properties and development from exploration and evaluation as mining areas commenced mining. As a result of the planned divestment of the Mt Henry–Selene Gold Project being classified as an Asset held for sale, the associated Exploration and Evaluation assets have been transferred to Assets classified as held for sale. Refer to note 25.

In addition, exploration and evaluation expenditure is capitalised if activities in the area of interest have not yet reached a stage that permits a reasonable assessment of the existence or otherwise of economically recoverable reserves. To the extent it is determined in the future that this capitalised expenditure should be written off, profits and net assets will be reduced in the period in which this determination is made.

14. TRADE AND OTHER PAYABLES

	31 December 2025	30 June 2025
	\$000	\$000
Trade creditors ^(a)	191,717	67,441
Sundry creditors and accruals ^(b)	166,704	114,470
Acquisition costs ^(c)	-	75,758
	358,421	257,669

The increase in Trade creditors balance was mainly as a result of the OPA and Income tax payable.

The carrying value of trade and other payables approximates the fair value.

(a) Trade creditors are non-interest bearing and generally on 30-day terms.

(b) Sundry creditors and accruals are non-interest bearing and generally on 30-day terms.

(c) The acquisition costs are related to stamp duty costs of the acquisition of Karora.

15. INTEREST-BEARING LOANS AND BORROWINGS

	31 December 2025	30 June 2025
	\$000	\$000
Current		
Lease liabilities	20,163	8,992
Syndicated Facility Agreement	-	50,000
Equipment loans	43,049	41,467
	63,212	100,459
Non-Current		
Lease liabilities	64,645	10,731
Equipment loans	33,410	36,067
	98,055	46,798

During the period, additional equipment loans of \$26,064,640 were obtained by the Group in a non-cash form which resulted in additions to property, plant and equipment.

The Group's Syndicated Facility Agreement (SFA) with ING Bank and Société Generale reduced to \$100M with Facility B valued at \$200M expired on 30 September 2025. At 31 December 2025, the SFA was undrawn with \$50M repaid during the period.

This facility is subject to the fulfilment of financial covenants, as are commonly found in lending arrangements with financial institutions. The Group regularly monitors its compliance with these covenants. As at 31 December 2025, none of the covenants relating to this facility have been breached.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE HALF-YEAR ENDED 31 DECEMBER 2025 (CONTINUED)

16. FINANCIAL LIABILITY - ROYALTY

The Group has a participation royalty agreement with Morgan Stanley (“Participation Royalty”), which was acquired through the acquisition of Karora. The Group shall pay Morgan Stanley 27.5% of the first 2,500 troy ounces of gold sold from Higginsville in each quarter, multiplied by the difference between the average gold London pm fix price for that quarter and AUD\$1,340 per ounce. Once the Group has paid the equivalent of 110,000 ounces the liability will cease. A total of 54,344 ounces remain outstanding. The Group may terminate its obligation to pay participation royalties on or after 1 January 2035 (unless extended under certain conditions) by paying USD\$0.7 million. The Group has recognised a derivative liability for the participation royalty agreement which is fair valued at each reporting period.

The fair value of the financial instrument not traded in an active market is determined using valuation techniques. These valuation techniques maximize the use of observable market data where it is available. If all significant inputs required to measure the fair value of an instrument are observable, the instrument is included as a Level 2 measurement. As the discount rate is not an observable input, the Participation Royalty liability is classified within Level 3 of the fair value hierarchy.

The participation royalty obligation was estimated using a forward contract valuation approach model. The key inputs used in the valuation include:

- the gold forward price curve;
- USD/AUD foreign exchange rates based on forward curves;
- discount rates incorporating the Group’s estimated credit spread of 3.20% as at 31 December 2025 (3.01% as at 30 June 2025);
- a current risk-free rate based on the Australian dollar swaps curve; and
- the Group’s estimated gold ounce delivery into the participation royalty.

The following table reflects the movements in the liability:

	31 December 2025	30 June 2025
	\$000	\$000
As at 1 July	54,331	-
Acquisition of subsidiary	-	40,366
Settlements	(6,127)	(8,305)
Net change in fair value	20,678	22,270
As at 31 December	68,882	54,331
Current Portion	14,018	10,009
Non-Current Portion	54,864	44,322

As at 31 December 2025, the following tables summarise the quantitative information about significant unobservable inputs used in Level 3 fair value measurements for the Participation Royalty:

Inputs	Unobservable inputs	Range of Relationship of unobservable inputs on fair value
Credit spread	3.20%	A change in the discount rate of 1 % would impact the fair value by \$1.7 million.
Gold forward price (USD/oz)	4,326 – 4,922	A change in the gold forward price of 10% would impact the fair value by AUD\$8.5 million.

24. ACQUISITION OF KARORA

On 8 April 2024, Westgold and Karora announced that they had agreed to combine into a merger, pursuant to which Westgold would acquire 100% of the issued and outstanding common shares of Karora by way of a statutory plan of arrangement under the Canadian Business Corporation Act (“CBCA”).

The merger between Westgold and Karora results in a larger, more diversified mid-tier gold producer. It positions the new entity as one of Australia's top five gold producers. The merger increases scale and trading liquidity, attracting investors across the ASX and TSX to a company operating solely in Western Australia with a strong balance sheet and full exposure to gold prices.

Karora’s operations includes the Beta Hunt and Two Boys underground mines and two processing hubs (Higginsville and Lakewood).

A wholly owned subsidiary of Westgold (“AcquireCo”) was set up for the purpose of the acquisition. With the successful completion of the transaction, Westgold exercise operational control and economic ownership of Karora effective from 1 August 2024. The formal completion of the transaction followed the receipt of key approvals for the transaction from the Ontario Superior Court of Justice in Canada, including approval by the Karora shareholders, the Foreign Investment Review Board and the Takeovers Panel during July 2024.

The consideration was funded through a combination of existing cash reserves and equity. Karora shareholders received 2.524 Westgold fully paid ordinary shares, C\$0.68 in cash from Westgold, and 0.30 of a share in Culico Metals Inc., a wholly owned subsidiary of Karora for each Karora common share held at the closing of the transaction.

Acquisition – related cost

Post merge acquisition costs of \$85.4M were included in the Statement of Profit or loss and Other Comprehensive Income at 30 June 2025, which includes stamp duty costs of \$75.7M.

Deferred Tax Liability

The total Deferred tax liability impact as a result of the purchase price allocation fair value determined totalled \$482M, mainly relates to the fair value allocated to Mine Properties, Exploration and Evaluation Assets. This non-current liability was arising from taxable temporary differences.

25. ASSETS HELD FOR SALE

During the period, Westgold executed a binding Asset Sale Agreement with Alicanto Minerals Limited (ASX: AQL) for the divestment of the Mt Henry–Selene Gold Project near Norseman, Western Australia. The transaction closed in February 2026, with a total consideration comprising cash, Alicanto Shares (representing a 19.9% strategic stake) and deferred consideration payable in cash or shares upon the achievement of agreed project milestones.

Both parties entered into the Asset sale and purchase agreement on the 15th of December 2025, subject to certain conditions precedent.

At 31 December 2025, the Mt Henry–Selene Gold Project was classified as held for sale, resulting in the associated assets and liabilities being transferred from their respective categories into assets and liabilities held for sale.

At period end, the net assets were measured at the lower of their carrying amount and fair value less costs to sell. As a result, a loss of \$177.9M was recognised in profit or loss. As the Consideration Shares are based on the Alicanto share price on the transaction date, the share price as at 31 December 2025 of \$0.15 per share has been applied for the determination of the consideration price below. Post transaction close, any adjustment required to the consideration will be recognised within the 30 June 2026 Financial statements.

25. ASSETS HELD FOR SALE (CONTINUED)

The consideration price as at 31 December 2025, was based on the following:

Consideration	\$000
Cash consideration	15,000
Consideration Shares ¹	53,565
Consideration Performance Rights ²	12,274
Total consideration	80,839

- 35,710,000 shares at an issue price of \$0.15 per share, equivalent to 19.9% share of the Alicanto Share Capital on the transaction date. The number of shares is provisional subject to any share consolidations or issue of share capital up to the date of completion of the transaction.
- 545,454,546 performance rights issued, expiring 5 years from the date of issue. These will vest on completion of the following milestones and assumptions applied for determining the fair values, including taking into account relevant discounting for Tranche 2 & Tranche 3. Alicanto has the option to settle these performance shares either via equity or cash up to the date of expiry.

# of Performance Rights	Milestone	Milestone Amounts	Probability applied
90,909,091	Alicanto completing 20,000m of drilling at the Mt Henry Gold Project.	\$5,000,000	100%
181,818,182	Alicanto announcing a mineral resource estimate in respect of one or more deposits within the area of the Mt Henry Gold Project of at least 2Moz with a category of Inferred or higher and a grade of not less than 0.5g/t AU reported in accordance with JORC.	\$10,000,000	60%
272,727,273	Alicanto announcing a positive final investment decision to proceed with the development and mining of one or more deposits within the area of Mt Henry Gold Project.	\$15,000,000	20%

If the above milestones are met post the expiry date, Alicanto will pay a cash consideration for each of these milestones based on the above Milestone Amounts.

The Net assets held for sale as at 31 December 2025, was based on the following:

	\$000

26. EVENTS AFTER THE BALANCE DATE

Divestment of Mt Henry - Selene Gold Project

The asset sale transaction concluded subsequent to the period end, with Westgold receiving 32,216,744 number of shares which is equivalent to 19.9% of Alicanto's issued capital, 45,454,547 performance rights and the remaining of the \$14M cash consideration. The number of shares differs from initial agreement as a result of a consolidation of Alicanto issued shares post period end.

As the consideration price is subject to the final Alicanto share price on the transaction date any adjustment required post period end will be recognised within the 30 June 2026 Financial statements.

Apart from the above no matters or circumstances have arisen since the end of the six months period which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial periods.

DIRECTORS' DECLARATION

In accordance with a resolution of the directors of Westgold Resources Limited (the Company), I state that:

In the opinion of the directors:

- (a) the financial statements and notes of the Company and its subsidiaries (collectively the Group) are in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the Group's financial position as at 31 December 2025 and of its performance for the half-year ended on that date; and
 - (ii) complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*; and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

On behalf of the Board

Hon. Cheryl L Edwardes AO

Non-Executive Chair

The Board of Directors
Westgold Resources Limited
Level 13, 200 St Georges Terrace WA 6000

Dear Board Members

Auditor's Independence Declaration to Westgold Resources Limited

In accordance with section 307C of the *Corporations Act 2001*, I am pleased to provide the following declaration of independence to the directors of Westgold Resources Limited.

As lead audit partner for the review of the half year financial report of Westgold Resources Limited for the half year ended 31 December 2025, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- The auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
- Any applicable code of professional conduct in relation to the review.

Yours faithfully

Independent Auditor's Review Report to the Members of Westgold Resources Limited

Conclusion

We have reviewed the half-year financial report of Westgold Resources Limited (the "Company") and its subsidiaries (the "Group"), which comprises the condensed consolidated statement of financial position as at 31 December 2025, and the condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of cash flows and the condensed consolidated statement of changes in equity for the half-year ended on that date, notes to the financial statements, including material accounting policy information and other explanatory information, and the directors' declaration as set out on pages 13 to 36.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the Group does not comply with the *Corporations Act 2001*, including:

- Giving a true and fair view of the Group's financial position as at 31 December 2025 and of its performance for the half-year ended on that date; and
- Complying with Accounting Standard AASB 134 Interim Financial Reporting and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Half-year Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* issued by the Accounting Professional and Ethical Standards Board ("the Code") that are relevant to our audit of the annual financial report of public interest entities in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's review report.

Directors' Responsibilities for the Half-year Financial Report

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Half-year Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2025 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
